PROFESSIONAL SUMMARY

Pre-final year B.Tech Computer Science student (2027) with a solid foundation in core computer science concepts and hands-on experience in software development, system analysis, and application validation. Skilled in understanding requirements, working with APIs, databases, and collaborating in team-based environments. Eager to contribute to real-world projects and continuously enhance technical and problem-solving skills.

EDUCATION

Chitkara University

B.Tech in Computer Science Engineering

Rajpura, Punjab

Aug 2023 – Jun 2027

- Relevant Coursework: Software Engineering, DBMS, Operating Systems, Computer Networks

Scholar's Academy

Senior Secondary (Mathematics & Computer Science)

Maharajganj, Uttar Pradesh

Apr 2021 – Apr 2022

PROJECTS

Hotel Booking Web Application

Web Application Development Project

Jan 2025 – May 2025

Node.js, MongoDB, Postman

- Worked on backend logic and data flow for user authentication, booking, and access management features.
- Validated API request-response cycles and handled edge cases for improved reliability.
- Collaborated with team members to analyze requirements and ensure functional correctness.

Networking Management System

System-Level Application Project

Jan 2025 – May 2025

Linux, Whiptail

- Designed and validated system utilities for monitoring network connectivity and performance metrics.
- Used Linux command-line tools to verify system behavior and troubleshoot issues.
- Focused on robustness, usability, and correctness of system workflows.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript (Basics)

Web & APIs: REST APIs, Postman, HTTP concepts

Databases: SQL (Basics), Relational Database Concepts

Tools: Git, Linux, VS Code, Google Sheets, Excel

Concepts: SDLC, Agile Methodology, Problem Solving

CERTIFICATIONS

Cloud Data Engineering – Coursera

Hands-on exposure to structured data processing, SQL querying, and cloud fundamentals.

Introduction to Agile Development and Scrum

Understanding of Agile practices, sprint cycles, and collaborative workflows.

Introduction to DevOps

Basic familiarity with CI/CD concepts and modern software delivery practices.

SOFT SKILLS

Analytical thinking, attention to detail, adaptability, communication skills, teamwork, and a continuous learning mindset.

LANGUAGES

English, Hindi
