PROFESSIONAL SUMMARY

Pre-final year B.Tech Computer Science student (2027) with hands-on experience in full-stack web development and API integration. Built and deployed AI-powered applications using the MERN stack. Strong foundation in backend logic, REST APIs, authentication systems, and database management. Passionate about building scalable software and solving real-world problems.

EDUCATION

Chitkara University

B.Tech in Computer Science Engineering

Rajpura, Punjab

Aug 2023 – Jun 2027

- Relevant Coursework: Software Engineering, DBMS, Operating Systems, Computer Networks

Scholar's Academy

Senior Secondary (Mathematics & Computer Science)

Maharajganj, Uttar Pradesh

Apr 2021 – Apr 2022

PROJECTS

AI Invoice Generator (Full Stack Application)

MERN Stack — OpenAI API — Deployed on Vercel

Aug 2025 – Present

github.com/vishwas4859/Ai-Invoice-Generator

- Developed a full-stack AI-powered invoice generation system using MongoDB, Express.js, React.js, and Node.js.
- Integrated OpenAI API to dynamically generate professional invoice descriptions based on user input.
- Implemented user authentication, protected routes, and secure invoice storage in MongoDB.
- Designed RESTful APIs for invoice creation, retrieval, and management with proper validation and error handling.
- Deployed frontend on Vercel and configured production-ready backend environment variables.

Networking Management System

Linux-Based System Utility Project

Jan 2025 – May 2025

Linux, Bash, Whiptail

- Built terminal-based utilities to monitor network connectivity and system performance metrics.
- Used Linux command-line tools to validate system workflows and troubleshoot connectivity issues.
- Focused on usability, robustness, and system-level problem solving.

TECHNICAL SKILLS

Programming: JavaScript, Python, Java (Basics)

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js

Databases: MongoDB, SQL (Basics)

APIs & Integration: REST APIs, OpenAI API, Postman

Dev Tools: Git, GitHub, Linux, VS Code, Vercel

Concepts: Authentication, CRUD Operations, MVC Architecture, SDLC, Agile Methodology

CERTIFICATIONS

Cloud Data Engineering – Coursera

Hands-on exposure to structured data processing, SQL querying, and cloud fundamentals.

Introduction to Agile Development and Scrum

Understanding of Agile practices, sprint cycles, and collaborative workflows.

Introduction to DevOps

Basic familiarity with CI/CD concepts and modern software delivery practices.
